# OVERVIEW OF ROYAL COMPENSATION PLAN 9 LEVEL UNILEVEL PAY PLAN WITH DYNAMIC COMPRESSION

With The Royal Network's **NEW AND REVOLUTIONARY** Royal Compensation Plan, Group Volume (GV) is accumulated in all nine (9) levels of the Royal Unilevel structure so you are promoted faster, move up the Ranks quicker and can generate more Royal Unilevel Sales Commissions.

All successful direct sales compensation plans have Personal Sales Volume (PSV) requirements that increase as your Rank increases. To help you achieve your sales and income goals, your Personal Auto-Subscribe and your Preferred Customers on Auto-Subscribe are both included in your Personal Sales Volume requirements.

**Dynamic Compression** that comes with the Royal Compensation Plan benefits both the new Business Associate as well as experienced Leaders who have advanced into the higher Rank levels by maximizing your payout on each level.

Qualifying is easy, no matter what your Rank is.

Here is how it works:

When it is time to pay you commissions, the Royal Network's Oracle Based software looks first at your Personal Sales Volume to see if you are "Active" by meeting your Personal Sales Volume (PSV) in a given calendar month. By qualifying, you are ready to benefit from **Dynamic Compression** by getting paid the maximum amount deep into your sales organization.

The Royal Network's Oracle Based software looks at the Royal Business Associates in your entire sales organization to see which ones have qualified with their Personal Sales Volume. Remember, you get paid on their Personal Sales Volume plus their Preferred Customer Sales Volume.

**Example:** The software starts looking at all Royal Business Associates that are on your first pay level. Let's say the software finds one of your first level Business Associates who has NOT qualified with their required Personal Sales Volume. This created an unpaid "hole" in your sales organization. The Royal Network's Software then systematically starts looking for the first person below you from the second level or below of your sales organization **to fill that unpaid "hole" in your team.**

If the second level person (or below) is an active Royal Business Associate (meeting their Personal Sales Volume requirement), then the Royal Network's Software moves them up to your first payment level and the "hole" is filled so that you are paid the maximum amount. It also moves up all the people under that person so that **you are paid maximum commissions.**

The software then searches **ALL Levels** of your sales organization looking for "holes" (that you would not have gotten paid on) until it finds one. **The computer then moves your sales organization up to fill up those holes. This Dynamic Compression reaches 10 levels, 20 levels deep and so on.** As you continue to move up to higher ranks, it will very likely reach down **50 levels or more** filling up all the sales organization "holes" **to maximize the size of your "Royalty Check!"**

This is exactly how the Royal Network's Dynamic Compression system gives you the **potential to be paid deeper than 9 levels in the Royal Unilevel structure of the Royal Compensation Plan.**

Many companies don't do this, and the money you would earn goes to the company. **In essence, The Royal Network's software system is working for you, to ensure that you are able to reap the most money from the Royal Compensation Plan.**

Royal Unilevel Sales Commissions are paid monthly.

## **ROYAL PRINCE & PRINCESS 1% SALES BONUS POOL**

Royal Business Associates participate in the 1% Royal Prince & Princess Sales Bonus Pool by maintaining Royal International Executive qualifications and 500,000 (GV) each month of each quarter of the year starting with January. Royal Prince & Princess Sales Bonus Pools are paid quarterly, January, April, July and October.

## **ROYAL KING & QUEEN 2% SALES BONUS POOL**

Royal Business Associates participate in the 2% Royal King & Queen Sales Bonus Pool by maintaining Royal Presidential Executive qualifications and 750,000 (GV) each month of each quarter of the year starting with January.
